OUR STORY SO FAR

Our Mission

To provide opportunities that help and encourage men to seek lasting positive mental, physical, emotional and spiritual well-being. We wish to foster an environment that promotes health, recovery, and rehabilitation.

Our Vision

Realizing the full potential of men working together to leave a lasting positive legacy, healthier families and stronger communities.

Our Values

MOTN is an aspirational goal that will offer opportunities to our members in healing and self-development, holding these values to the utmost importance.

- **Integrity** – Increasing the integrity, trust, competence, and honesty within the individual.
- **Responsibilities** – Accepts the responsibility of emotions, thoughts and actions.
- **Quality** – Delivering high quality of services and programming.
- **Communication** – Can speak one's own truth even through tough situations.
- **Community** – Help with community engagements and/or Men of the North engagement initiatives.

Our Purpose

Men of the North Inc. program is a unique and distinct program, in that it offers men encouragement to heal, system of supports, guidance, and sharing of wisdom in all areas of the physical, mental, emotional and spiritual aspects of life.

Fundamental basis of our program is to have all members collaborate on a vision that is noble and worthy. Helping men to become self-aware, self-compassion, and become self-forgiving to further obtain their self-respect. So that they will become better communicators in helping to get their lives together and shouldering the responsibilities of the world, in a manner that is good for them, good for their families, and good for their communities.

WHY IS IT HARD FOR MEN TO ASK FOR HELP?

128
MEN HAVE DIED BY
SUICIDE IN 2022

Male suicides by Race within Saskatchewan in the year 2022

Our society often labels men as the strong ones, a rock, and that they shouldn't need to ask for help. Then men believe that if they do, they will be seen as weak.

They often hide their fear and anxiety behind aggressive, bombastic behaviour, many times retreating to their man cave to lick their wounds, only coming out when they feel it's blown over and forgotten. Or they seek solace in alcohol or drugs.

How often are they told:

- "man up"
- "Don't be a girl"
- "Get over yourself"
- "No sense of complaining, because no one is going to listen anyways"

Their male friends and mates suggest they go out and get drunk, or laid to get over whatever they are going through, and assures them that will make them feel better. But it doesn't. They sink further into depression or their anxiety increases. They feel they have nowhere to go. Often they don't understand what is going on, so they repeat their unhelpful behaviours, creating a vicious cycle.

One of the greatest reasons why it is difficult for men to ask for help is they do not want to appear burdensome or needy to their friends and family. Many men think that they are putting someone out when they ask for help.

That is rarely the case.

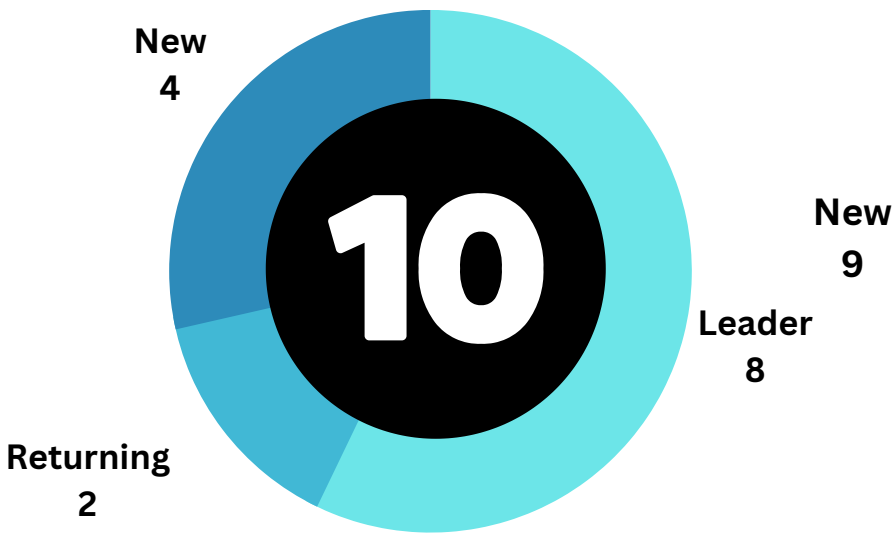

People are more willing to help than you realize.
